RISING SENIORS

SUBJ: Rising Seniors! Is college next for you?

If yes, serious planning needs to start sooner rather than later. Students and parents need to consider the type of school, cost, and location when considering where to apply. After your initial research, look back at the schools still on your prospective college list. Your final list should include at least one school you know you can get into and afford, a few schools you have a high likelihood of getting into, and one or two schools that would be a reach for you. Remember this is the fun part. Shop until you drop.

Download the free college planning guide from the RISLA College Planning Center. This a great resource to help get you started and keep you on track so you can start your senior year with a head start toward your college journey.
